How to read this Student Feedback on Units report

Section 1 Frequency tables and charts

Satisfaction (Items 1 – 7 and 10 – 15)

These items involve Likert scales. The tables report ‘broad agreement’ or ‘broad disagreement’ with the statements. ‘Broad agreement’ is an aggregate of all responses of ‘strongly agree’, ‘agree’ and ‘slightly agree’. ‘Broad disagreement’ is the aggregate of all disagree categories.

Where respondents have left an item blank, this is recorded as missing. The “Valid Percent” column tells you the percentages, omitting any missing responses.

3. The subject stimulates my curiosity to learn more about this field

| Value | Frequency | Percent | Valid Percent |
|-------------------|-----------|---------|---------------|
| Strongly Agree | 8 | 47.1 | 47.1 |
| Agree | 5 | 29.4 | 29.4 |
| Slightly Agree | 1 | 5.9 | 5.9 |
| Slightly Disagree | 1 | 5.9 | 5.9 |
| Disagree | 0 | 0.0 | 0.0 |
| Strongly Disagree | 0 | 0.0 | 0.0 |
| Total | 17 | 100.0 | 100.0 |

The charts in this section include the breakdown of the categories for ‘broadly agree’ and ‘broadly disagree’. Values which were not selected by any respondents are omitted.

Subject difficulty and workload (Items 8 & 9)

The tables in this section report whether respondents found the subject difficulty or workload to be ‘broadly low’, ‘moderate’ or ‘broadly high’. The ‘broadly low’ and ‘broadly high’ categories are aggregates of the ‘very low’ and ‘low’ and ‘very high’ and ‘high’ categories, respectively. Again, the charts include a breakdown of the categories.

Summary – Means

Finally, the last table in the report provides the “means” for items 1-15.

While these means are not, strictly speaking, a statistically meaningful measure, they are a useful way to summarise and compare performance.

Descriptive Statistics

| | N | Mean | Std. Deviation |
|---|----|------|----------------|
| 1. The subject is well organised | 17 | 5.24 | .662 |
| 2. Information and concepts are clearly explained | 17 | 5.00 | .791 |
| 3. The subject stimulates my curiosity to learn more about this field | 17 | 5.24 | .903 |
| 4. I am given opportunities to apply my learning | 17 | 4.76 | .970 |
| 5. The assessment requirements are clear | 17 | 5.12 | .857 |
| 6. The assessment tasks align well with the subject content | 17 | 5.18 | .728 |
| 7. The assessment tasks assist my learning | 17 | 4.94 | .827 |

The mean value is an average response calculated by adding all the valid responses and dividing by the number of valid cases. The maximum value is 6. If two subjects have the same proportion of broad agreement to broad disagreement, if one is clustered at “strongly agree” and “slightly disagree” while the other is clustered around “slightly agree” and “strongly disagree”, the first will have a higher mean than the latter.

The standard deviation gives an indication of the distribution of the results. An item where the responses are evenly divided between “strongly disagree” and “strongly agree” has a high standard deviation. If the responses were clustered around slightly disagree and slightly agree, the standard deviation would be lower. You can see the range of responses by looking at the chart related to the item. Means for the Higher Education Division as a whole have been provided for comparison.

Section 2: Respondent demographics

This section includes demographic information from DEST data files is derived from student ID numbers. (Reports may be requested against these variables if required to support improvement activities)

The demographics reported are:

- Course(s) enrolled Each respondent’s enrolled course
- Enrolling Faculty The faculty to which the respondents are attached
- Age range of respondents
- Gender
- Status Postgraduate or Undergraduate
- Funding type This indicates the source of funding for the respondents (Commonwealth Grant Scheme or local or international Fee Paying)

Note: Improvement is indicated for any item which falls below 75% broad agreement.

Currently, the lowest 10% of subjects in each broad field of education, (as calculated by aggregate mean of items 1-7 and 11-15) require a formal improvement plan which is tabled at the next available Academic Programs Quality Committee (APQC) meeting. This listing is provided to faculties when available.

Question 10 and 11 Comments

| | Case Number | Q10&11Facilities and Resources - Comment |
|---|-------------|---|
| 1 | 4354 | ACL's need to be explained more in the labs. I found that the exam covered tougher material regarding ACL's. |
| 2 | 4940 | the learning material is good |
| 3 | 5600 | Too many assessments |
| 4 | 5646 | Overall the learning materials and resources were pretty strong. But sometimes Cisco equipment within labs was a little lacking. There were a few occasions where myself or other students were forced to use NETLAB due to insufficient equipment, which is unfortunate because nothing beats hands-on exposure to real industry equivalent equipment. That said, having the option of NETLAB (especially from home) is an excellent bonus. ☐☐ Aside from that, one issue was the exam revision lectures weren't posted on BlackBoard or Lectopia, despite being shown in the final revision lecture. I feel this was unfair for the students who explained on the discussion board that they were unable to attend due to illness or other commitments. |
| 5 | 5744 | We need more practice exams- both lab and written. Not knowing what sort of questions are going to be asked in exams is a problem. |

Question 12 Comments

| | | | Case Number | Q12 The way this subject is delivered suits my needs -Comment |
|---|-------------------|------|--|---|
| 12. The way that this subject is delivered suits my needs | Strongly Disagree | 1 | 5531 | lectures are too short, topics are not covered clearly, no useful examples of real life problems. Well all know 1+1 = 2 ... seriously. |
| | | N | | 1 |
| | Disagree | 1 | 4506 | The ccna modules were great and the studying for the exams greatly increases my knowledge and skills. The tutorials were also great. However the final written exam and lab exam formats were disappointing. A friend of mine forgot one pitiful line of an acl and therefore failed the lab exam...is this fair? His knowledge on networks was flawless. And our assignment group scored 19.5/20 for the assignment and all got over 75% for our ccna1 and 2 exams...BUT how is it that we ALL struggled badly on the written exam. Something needs to be done to improve this subject so that more than 1/3 of the class can pass...expecially those who spent hours upon hours studying only to lose out to a poorly thought out exam with inadequate time restraints. |
| | | N | | 1 |
| | Slightly Agree | 1 | 4940 | the module test is too difficult however the final exam is quite easy |
| | | N | | 1 |
| | Agree | 1 | 5402 | The course is quite rushed, maybe a 2hour lecture weekly instead of a 1hour. |
| | | N | | 1 |
| Strongly Agree | 1 | 5646 | This is one of the few subjects that seems to realise how important hands-on experience is. The three hour labs were an excellent opportunity to gain real industry equivalent experience with Cisco equipment and my lab tutor made the time enjoyable, with his humour and not-too-serious attitude to learning. | |

|--------------------------------------|-------------------|---|-------------|--|
| 13. I have received helpful feedback | Strongly Disagree | 1 | 5531 | Strongly told not to individually ask about results - VERY irritating. A 1 page document of 'common' errors is not acceptable for such a large group of students. Just lazy, plain and simple. |
| | | N | | |
| | Strongly Agree | 1 | 5646 | Our lab tutor was to provide helpful feedback on our progress and answer any questions we had during our lab sessions, which was excellent. |

|--|-------------------|---|-------------|---|
| 14. Overall, I am satisfied with the quality of teaching in this subject | Strongly Disagree | 1 | 5531 | Responses such as 'It means what it says' is not useful help. Clearly I wouldn't be asking you for help if I knew what it meant. Unclear on what topics were on the written exam, no lecture slides to refer back to, no video for review lecture on lectopia (purposely) - do you want us to fail??? |
| | | N | | |
| | Disagree | 1 | 4506 | My tutor Peter was great however. the lecturer, mr Tony, seems does not know what will be shown on the screen when he push Next. He was almost passive with the content of the slide, so the lectures were disjointed and boring. |
| | | 2 | 5592 | |
| | | N | 2 | |
| | Slightly Agree | 1 | 4052 | I think the subject might depend a little too much on Cisco materials. The Cisco materials are difficult to read and sometimes don't have anything to do with assessment. The amount of material to cover in 1 semester is somewhat de-motivating. |
| | | N | 1 | |
| | Strongly Agree | 1 | 5646 | The teaching in this subject was of a very high standard. More subjects at Swinburne should take the model used within this subject because it is clearly a very successful one. |

| | | N | | |
| | Strongly Agree | 1 | 5646 | More subjects at Swinburne should take the model used within this subject because it clearly works. I hope HET424 IP Technologies, which this subject leads to, is of such a high standard of teaching. |
